A/E/P Maguire Group Expands Focus on Higher Education Design

New Hire Helps Maguire Grow Architectural Design Business in New England

Boston, MA – As it continues to expand its operations throughout New England, A/E/P Maguire Group announces the hiring of George Delegas, AIA, as Principal Architect to take advantage of the firm’s experience in providing architectural and engineering services to higher education clients. Maguire is pleased to welcome him to its Boston area office.

Mr. Delegas has over 30 years of experience as an architect. For over half his career, he has specialized in design of academic projects including K-12 and higher education, overseeing multiple capital projects, and skillfully managing the entire design and construction process for Northeast and international clients. Projects include colleges and universities, private and public schools and libraries, housing / hospitality facilities and religious buildings. Mr. Delegas also has assisted the Massachusetts School Building Authority (MSBA) with needs assessments of over 1,800 public schools. Mr. Delegas will expand Maguire Group’s efforts in the academic market sectors with projects related to new construction, renovation and expansion.

Past higher education clients include, in Massachusetts, the University of Massachusetts, Bristol Community College, and Hellenic College and Holy Cross; in New York, St. Vladimir’s Orthodox Seminary College and also Keuka College; in Florida, St. Leo University; and overseas, The American College of Greece in Athens, and the American University in both Bulgaria and in Kosovo. Mr. Delegas served as Executive Director of Facilities and Capital Projects at The American College of Greece. He is also a former Principal at deCastro Nelson Delegas Associates.

About Maguire Group Inc.

Maguire Group was founded in Providence, Rhode Island over 70 years ago as a small civil engineering firm. Today, Maguire is a full-service, nationally recognized architectural, engineering, planning, and construction management organization. Throughout its history, Maguire has played an important role in the planning, design and construction of the infrastructure used in our daily life for thousands of clients—from tiny towns to Fortune 500 companies—across the country and around the world. That role continues today as part of the Metric Engineering Group.

About Metric Engineering Group, Inc.

Metric Engineering Group (MEG) is one of the nation's leading engineering, architectural, construction and emergency management organizations specializing in infrastructure and transportation for government clients. Today, the Group includes over 500 dedicated professionals in 25 strategically located offices throughout the eastern coast of the United States, Texas, Latin America, and the Caribbean. Ranked as #291 on the *Engineering News Record* Magazine’s list of “The Top 500 Design Firms,” MEG provides full-service project delivery, from conceptual design to construction, maintenance, and operation.
